

# Japan Karate Tour 2020

In this tour, you will spend 4 days of Kyokushin Karate training in Japan out of the total 9-day tour. Training includes 2 days in the Tokyo Dojo and the other 2 days in Mt. Mitsumine. As for the Karate tour, you will receive direct guidance, counselling and contributions from Shihan Prasanna Fernando. Your Karate training will be enhanced by training directly with Japanese instructors who will teach you during training sessions in Tokyo. Shihan has attended training in Mt.Mitsumine several times. We believe this experience will really help our members to reach their goals while training there.

"We all know that all Karateka hope to go to Japan one day, get training there or perhaps participate in a championship, and last but not least visit the memorial of Sosai Masutatsu Oyama to pay him respects. Therefore, you will experience all of them at least once in your lifetime during this special tour".

We at Kyokushin Budo Karate Shakai International are fully dedicated to making you fulfil this desire of yours.
